Date: 4/2020

To the Parents/Guardians of: 6th grade students

RE: Notice of Non-compliance with Immunization Law and/or School-entry Health Examination

Dear Parent:

Florida Statute 1003.22 states that children must be administered immunizations and have on file certification of a school-entry health examination in accordance with the law in order to attend school. Your child's health records have been reviewed and the immunization record and/or record of health examination is not in compliance with the law.

Our records indicate that your child is delinquent in the following immunizations:

	DTap	5 doses (4 if the last dose given after the age of 4)
x	Tdap	1 dose (prior to entering the 7 th grade)
	Polio Series	4 doses (3 if the last dose is given after age 4)
	MMR	2 doses
	Hepatitis B	3 doses
	Varicella	1 dose (or provider documentation of chickenpox)
		2 doses required for kindergarten students only

If the school does not receive record of immunizations/health examination by, August 10th your student will not be allowed to attend school. Any days missed because of failure to have proper immunizations/health examination will result in unexcused absences from school.

You may have your student's immunizations documented by your private physician. If you do not have a physician, services are available at the St. Johns County Health Department. For information regarding department hours, please call (904) 209-3250. You may also have your physician fax your updated 680 form to 547-3845.

Should you need any additional information, please contact your School Nurse or you may contact the Director for Health Services at (904) 547-7628.

Sincerely,

Kirstie Gabaldon, Principal
